

1 Identification

· Product identifier

- · Product Name: Volatiles Mix D, CLP SOW 2/88 & 3/90 (High Level)
- · Part Name: CLPV-DH
- · Application of the substance / the mixture Certified Reference Material
- Details of the supplier of the safety data sheet
 Manufacturer/Supplier: Spex CertiPrep, LLC.
 203 Norcross Ave, Metuchen, NJ 08840 USA
 732-549-7144
 USMet-CRMSales@antylia.com
- · Information department: product safety department
- Emergency telephone number: Emergency Phone Number (24 hours) CHEMTREC (800-424-9300) Outside US: 703-527-3887

2 Hazard(s) identification

Hazard statements

H331 Toxic if inhaled. H350 May cause cancer.

Precautionary statements

P210

P240

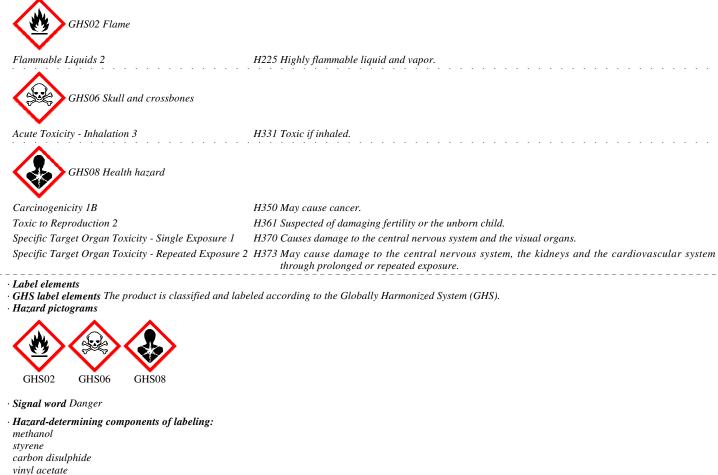

H225 Highly flammable liquid and vapor.

H361 Suspected of damaging fertility or the unborn child.

H370 Causes damage to the central nervous system and the visual organs.

Ground/bond container and receiving equipment.

· Classification of the substance or mixture

H373 May cause damage to the central nervous system, the kidneys and the cardiovascular system through prolonged or repeated exposure.

Keep away from heat/sparks/open flames/hot surfaces. - No smoking.

Safety Data Sheet acc. to OSHA HCS

certiprep
Printing date 02/28/2023

Product Name: Volatiles Mix D, CLP SOW 2/88 & 3/90 (High Level)

P241	Use explosion-proof electrical/ventilating/lighting/equipment.	
P242	Use only non-sparking tools.	
P243	Take precautionary measures against static discharge.	
P260	Do not breathe dust/fume/gas/mist/vapors/spray.	
P280	Wear protective gloves/protective clothing/eye protection/face protection.	
P303+P361+	P353 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.	
P304+P340	IF INHALED: Remove person to fresh air and keep comfortable for breathing.	
P308+P313	IF exposed or concerned: Get medical advice/attention.	
P321	Specific treatment (see on this label).	
P403+P233	Store in a well-ventilated place. Keep container tightly closed.	
P403+P235	Store in a well-ventilated place. Keep cool.	
P405	Store locked up.	
P501	Dispose of contents/container in accordance with local/regional/national/international regulations.	
· Classification	system:	

• NFPA ratings (scale 0 - 4)

· HMIS-ratings (scale 0 - 4)

· Other hazards

- · Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- **vPvB:** Not applicable.

3 Composition/information on ingredients

· Chemical characterization: Mixtures

• Description: Mixture of the substances listed below with nonhazardous additions.

Dangerous components:	
67-56-1 methanol	98.2%
75-15-0 carbon disulphide	0.2%
100-42-5 styrene	0.2%
108-05-4 vinyl acetate	0.2%
108-10-1 4-methylpentan-2-one	0.2%
591-78-6 hexan-2-one	0.2%
Chemical identification of the substance/preparation	
67-64-1 acetone	0.2%
78-93-3 butanone	0.2%
106-42-3 p-xylene	0.2%
156-59-2 cis-dichloroethylene	0.2%

4 First-aid measures

· Description of first aid measures

· General information:

Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

- Remove breathing apparatus only after contaminated clothing have been completely removed.
- In case of irregular breathing or respiratory arrest provide artificial respiration.

• After inhalation:

Supply fresh air or oxygen; call for doctor.

In case of unconsciousness place patient stably in side position for transportation.

- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- · After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.
- · After swallowing: Do not give anything to eat or drink Do not induce vomitting

· Information for Doctor:

• Most important symptoms and effects, both acute and delayed No further relevant information available.

· Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 Fire-fighting measures

· Extinguishing media

- Suitable extinguishing agents: CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- · Special hazards arising from the substance or mixture During heating or in case of fire poisonous gases are produced.
- · Advice for firefighters
- · Protective equipment: Mouth respiratory protective device.

· Personal precautions, protective equipment and emergency procedures

6 Accidental release measures

	precautions, protective equipment and emergency procedures	
	spiratory protective device. tective equipment. Keep unprotected persons away.	
	nental precautions:	
	th plenty of water.	
Do not al	low to enter sewers/ surface or ground water.	
	and material for containment and cleaning up:	
Absorb w	ith liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).	
	ontaminated material as waste according to item 13.	
	lequate ventilation.

7 Handling and storage

- · Handling:
- · Precautions for safe handling
- Ensure good ventilation/exhaustion at the workplace. Open and handle receptacle with care.
- Prevent formation of aerosols.
- Information about protection against explosions and fires: Keep ignition sources away - Do not smoke. Protect against electrostatic charges. Keep respiratory protective device available.
- · Conditions for safe storage, including any incompatibilities
- · Storage:

· Control parameters

- Requirements to be met by storerooms and receptacles: Store in a cool location.
- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep receptacle tightly sealed.
- Store in cool, dry conditions in well sealed receptacles.
- Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

- M	Protective gloves
111.	plove material has to be impermeable and resistant to the product/ the substance/ the preparation

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

· Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

11 Toxicological information	
· Information on toxicological effects	
· Acute toxicity:	
· LD/LC50 values that are relevant for classification:	
67-56-1 methanol	
Oral LD50 5,628 mg/kg (rat)	
Dermal LD50 15,800 mg/kg (rabbit)	
Primary irritant effect:	
• on the eye: No irritating effect.	
· Sensitization: No sensitizing effects known.	
Additional toxicological information:	
The product shows the following dangers according to internally approved calculation methods for preparations:	
Toxic	
Product is suspected to cause damage to fertility.	
Product is suspected to cause birth defects.	
· Carcinogenic categories	
· IARC (International Agency for Research on Cancer)	
100-42-5 styrene	2A

100-42-5 styrene	<u> </u> <i>R</i>
· OSHA-Ca (Occupational Safety & Health Administration)	
None of the ingredients is listed.	

12 Ecological information

· Toxicity

- · Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Behavior in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- Mobility in soil No further relevant information available.
- · Additional ecological information:
- · General notes:

Water hazard class 1 (Self-assessment): slightly hazardous for water

- Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.
- · Results of PBT and vPvB assessment
- · **PBT:** Not applicable.
- vPvB: Not applicable.
- Other adverse effects No further relevant information available.

13 Disposal considerations

- · Waste treatment methods
- Recommendation: Must not be disposed of together with household garbage. Do not allow product to reach sewage system.
- · Uncleaned packagings:
- · Recommendation: Disposal must be made according to official regulations.
- · Recommended cleansing agent: Water, if necessary with cleansing agents.
